

# 3 for 2

## INCREDIBLE VALUE, INDUSTRY-LEADING WI-FI INFRASTRUCTURE

### Limited Time Offer!

**3 for the price of 2 when you buy AP410C-1-WR\* with 1-year ExtremeCloud™ IQ subscription.**

Enhance your customer's WLAN network with Extreme Networks. With Extreme's Universal infrastructure, customers can take advantage of hardware agility and reduce the total cost of their network.

### Wi-Fi 6 Tri-Radio AP410C Access Point with Wi-Fi 6 data rates

Wi-Fi 6 (802.11ax) Tri-Radio Access Point with Wi-Fi 6 data rates up to 4.8 Gbps, Dual 5 GHz and dedicated dual-band threat sensor.

The AP410C-1-WR\* is designed to meet the challenges of more users, more devices, more things, more applications and more threats straining infrastructure.

Combines powerful 802.11ax Wi-Fi 6 technology, advanced security and ML/AI management capabilities together into an enterprise class solution, allowing customers to deploy high speed, highly secure Wi-Fi into the toughest environments.

#### Advanced Tri-Radio Technology

Available in 5 GHz 4x4:4, 2.4 GHz 2x2:2, and 2.4 GHz / 5GHz / Sensor configurations. Includes Dual 5 GHz operation.

#### Optimal RF Management User Experience

Adaptive RF management with AI/ML functionality provides intelligent selection of the best channels and transmit power for an optimal user experience.

#### Security and Performance Optimization

Dedicated, dual-band sensor scans for threats full time, eliminating the risks of radio time-sharing between clients and WIPS.

\* AP410C-1-WR does not include IoT radio and Bluetooth functionality.
